Puebla, México · [linkedin.com/in/emmanuel-alexander](https://www.linkedin.com/in/emmanuel-alexander) · 2431211308 · [evaqueroaquino@gmail.com](mailto:evaqueroaquino@gmail.com)

*Software developer with experience in Java (Spring Boot 3, Java 17/8), React, and TypeScript, specializing in backend application development with contributions to the frontend. I currently work in the financial sector, creating REST services, modules for legacy systems, and mobile applications. I handle relational databases (MySQL), version control (Git/GitLab), and have knowledge of Docker and CI/CD. I am passionate about continuous learning and process improvement, with a solid foundation in Clean Architecture.*

## PROFESSIONAL EXPERIENCE

**TEKSI Technology Consultants S.A. de C.V.**  
*Fullstack Developer*

**Tehuacán, Puebla**  
*May – August 2024*

- Developed REST APIs with Spring Boot for a project in the financial sector.
- Created dynamic components in React + TypeScript, consuming APIs with Axios.
- Worked as a team using SCRUM, participating in sprints, and implementing best practices.
- Used Git and GitLab for version control and project management.

**Maxikash – Motorcycle Finance Company**  
*Backend Developer*

**Mexico City**  
*January 2025 – Present*

- Development of REST endpoints in Spring Boot 3 with Java 17, applying best practices and architectural standards.
- Implementation and maintenance of modules in a Java Web App system (Java 8, legacy) used for credit management.
- Support in the development of a mobile application using React Native CLI + TypeScript, including the generation of the deployment file for the Google Play Store.
- Integration of MySQL databases for data persistence.
- Participation in an agile team using the SCRUM methodology.

## EDUCATION

**IZUCAR DE MATAMOROS TECHNOLOGICAL UNIVERSITY, PUEBLA**  
Software Development and Management Engineering

**Izucar de Matamoros, Puebla**  
*August 2022 – Present*

**University Technician in Information Technology, Multiplatform Software Development**  
August 2022 – August 2024

## ADDITIONAL SKILLS

- **Languages:** Native Spanish speaker. English: Level A2 (basic).
- **Frameworks and Technologies:** Experience with React, TypeScript, TailwindCSS, Spring Boot, Java, and Docker.
- **Databases:** Familiarity with PostgreSQL and CRUD operations.
